There are investments and investments. Stocks and bonds are subject to some such diverse influences that it is never possible to say with certainty they will not depreciate in value. Certain securities are, of course, far more desirable than others, and can be sensibly count on their stability. There is one security, however, that we always recommend without any reservation whatever. Its market value never fluctuates. The interest is paid regularly and the principal is always repaid as promised. We refer to our interest-bearing Certificate of Deposit—a 100 per cent Safe and Sound investment for either short or long periods.

Mr. W. L. Brown is right sick. We understand that Mr. J. W. Marshall will move to Mrs. E. Caldwell's this fall to farm for her; he has lived on Mr. J. F. Purdum's farm for the past seven years; good for John.

Mr. and Mrs. M. T. Goin, of Clifton Forge, visited relatives here last week. It has been twenty five years since they were at Appomattox, and their eyes were opened wide to see how the town has grown since then.

Found—On public road between my place and Pamplin, one watch; owner can have same by proving property and paying for this notice. J. M. BUCKMAN, Evergreen, Va.

On Saturday, (lebron, Bethel and Stonewall churches held a union picnic at H-brook church. Rev. McFarland and J. C. Moss delivered addresses and the male quartette of Rivermont Baptist church was much enjoyed.

Widows will be in the line at the Appomattox Fair. Prizes will be awarded as follows: 5 pound box, 3 pound box, 2 pound box of Huyler's candy to the three prettiest widows attending the Fair. The contest will be by vote. Visit the widows' booth and vote early and often.

Notwithstanding the fact that the prices on most articles of food and wearing apparel have been reduced, the prices on some makes of shoes have been increased 25 per cent over the prices of a year ago; and this in face of the further fact that the price of raw hides has fallen from about 40 cents a pound to 10 cents. There's evidently something crooked somewhere.

Hiburg. Quite a number of our citizens recently requested me to inquire through the Hiburg board, as to what had become of the proposed bridge across the Appomattox at a point known as the John Marshall ford, and that they were much surprised at the long delay, the order having been passed by our County Board over a year ago. And in connection I will mention a case of direct necessity for this bridge to have been erected before now. Only a short time ago Mr. Larkin was called to attend a special session between this place and Hollywood—the hour late, the night very dark and rainy. This ever-ready and most willing servant of the people was caught in this dangerous place between his creek and river and for hours he was in unknown peril in trying to reach the residence of Mr. F. E. Egan, by going up the side of the steep, rocky, ground covered with water, and he drove within four or five feet of over 80 yards of a ditch about eleven feet deep. Now, in case of an accident, the burden of responsibility would rest heavily on some one. Let's get busy and get the side-track clear so that this bridge can come on in order to let it stand on the calendar; we ask for nothing more.

Mr. Lloyd Coleman and a very narrow escape from being drowned on Friday night of last week. When he left the church meeting he said he had no idea of the night being past fording, and, running his car at a good speed, he plunged into near the middle of the stream and had to swim out. It was a thrilling experience, as he relates it. Our meeting closed on last Sunday night, after one week of the most earnest preaching by the Rev. Mr. Poole, of Spring Creek. A number professed faith in Christ and will be baptized this, Wednesday morning, in the river near the home of W. L. Ford.

A "pig" in the bed. Many words in everyday use have quite another meaning in remote corners of the country. An auction is a dirty or untidy place; and some rustic, when unwell, tell you that they feel "comical". A pig or piggy is a hot-water bottle—hence the story of the traveler who returned to civilization with a tale that in Northumberland the people slept with a pig in the bed for warmth—London Express.

Catarhal Deafness Cannot Be Cured by Local Application, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and the tube restored to its normal condition, hearing deafness are caused by catarrh, which is face. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for each case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars sent free. F. J. CHERRY & CO., Toledo, O.

Every Inch of the Bates Steel Mule is Thoroughbred

The United States government by means of the Department of Agriculture, has been looking into the tractor question, and its bulletins clearly prove that the satisfied tractor owner—men who say that the tractor has paid—are men who own the BETTER CLASS of tractors. The successful man has learned years ago that he can't get something for nothing. No one can. The reason the BATES STEEL MULE costs more is that it is worth more. Skilled factory procedure, quantity production and the most modern Machinery enables us to save money at every turn, yet the BATES STEEL MULE cost slightly more in the beginning to build but considerably less in the long run to own. It's just another case where a seemingly higher priced article is as cheap to own when you come to actually USE it.

The Bates thoroughbred quality comes not from mere claims, but from what's put into it. Every part that goes to make up the BATES STEEL Mule is put there by long field experience. There isn't a part that isn't time-tried and tested. There isn't a part that experience hasn't dictated the shape and size of; and in it all there isn't one superfluous part, nor one part that isn't capable of standing up under twice the strain it gets in actual use. These are things experience and practice have distracted. The BATES comes to you as a fulfillment of your desire for a tractor that will endure. Price is what we pay for a thing. Value is what we get out of it. Consider your tractor from what you will get out of it, consider how many working days you have when the ground is wet, consider the operations where you can not afford to pack your seed bed, and consider how constantly and economically they must be performed even in rush times, you will then see why the BATES STEEL MULE is the biggest value offered in any tractor on the American market today.

We want this Bank to be different--

To breathe a different spirit, to reflect a different attitude than is said to prevail in some financial institutions.

We desire that this shall be a bank of willing, cheerful service—broad in its views, generous in its sympathies, helpful in its strength—conservative only when conservation is necessary to maintain that strength.

We want the conscientious interest that we hold for the welfare of our customers to be the magnet which will attract and hold the patronage of a discriminating and appreciative public.

We desire that this spirit shall prevail in every department and be reflected in the helpful attitude of every employee.

This has been our endeavor in the past. It will continue to be our aim and purpose in the future.
